

EZ SEAL + E

EPOXY/ACRYLIC INTERIOR CONCRETE SEALER

Ez Seal + E is a non-yellowing water based epoxy acrylic designed for interior concrete sealing applications. Ez Seal + E is a high solids coating that provides a superior high gloss finish for interior horizontal or vertical concrete and masonry finishes. It is self-crosslinking, which provides better film formation, water resistance, adhesion and outstanding efflorescence and alkali resistance.

Type:	Non-Yellowing Acrylic Copolymer
Form:	Liquid
Odor:	Minimal
Color:	Milky White in the bottle
Clarity:	Clear
Sediment:	None
Stability:	1 Year Minimum
Freeze:	DO NOT let freeze
VOC:	<100 g/l
Adhesion:	Excellent
Solids:	32%
Coverage:	250 Square Feet Per Gallon

Note: coverage rates may vary depending on porosity, texture, application method and prior sealer application. excess build up should be avoided.

APPLCIATIONS

Can be used as a means of “dust proofing” most concrete surfaces. Epoxy and acrylic properties give this product a tough and very durable finish. Superior high gloss film formation due to high solids content. Superior efflorescence and alkali resistance compared to common solvent based acrylic sealers.

Recommended for stamped concrete, acid stained concreted, overlays and other forms of interior vertical or horizontal decorative interior concrete.
